BURR (or Brrrrr)

The Girton oak has developed a burr
Under the bark it is seen **and** heard
Rolling Rs and layering up—
Nothing else works for the College bird.
The burr-sore want some fast relief:
Heat-treatment is the only cure;
Everyone should give the bursar grief—
Have protests along her (warm) corridor.
Every Girtonian burrs like a Scot,
At every moment the burring grows,
Thrushes migrate where the weather's hot,
Only we are left in its throes,
Now, bursar, now, let us warm our toes.
